

### **Free Yezidi Foundation set to begin work**

In January, *Free Yezidi Foundation* founder Pari Ibrahim traveled to Duhok with a leading Dutch news program, Brandpunt, as well as a post-trauma specialist from the United Kingdom to conduct a fact-finding assessment for the establishment of the *FYF* women's centre and children's centre.

*FYF* is currently finalising the details of its coordination with an international team of post-trauma experts set to begin providing on-site treatment later this year. During the visit, *FYF* also distributed approximately \$2,500 in aid, including shoes, blankets, food, and small toys for children and families on Mount Sinjar and in Xanke refugee camp, and financial assistance to ten women who escaped from ISIS.
